The 3 biggest Greentree problems we see !

Training, training and a commitment to train !

All too often organisations view **training** as an expense to be avoided, as opposed to **an investment that can, in the bigger picture, protect the success of the business in the long term.**

You all have an extensive financial investment in Greentree.

With this in mind, **what is the risk** to your business of not prioritising the training of your team?

New and eager employees will be affected by old team members and their attitudes.

New staff will be ready for the challenges ahead with a willingness to learn everything they can, to get the best start possible, but **if you don't have a training plan in place, the natural place they will look for training is to their colleagues**. If those colleagues are disengaged, frustrated and struggling to achieve because of their own lack of training, well – you can see the pattern forming.

At Primacc **we have been thinking about how to best assist our clients when new staff are appointed** to ensure that your investment in Greentree is maximised.

Please contact your **Primacc consultant** for any
enquires, we are always happy to help.
09 570 4580

We have come up with the following:

1. **We will email your new employee and our primary point of contact for your organisation with a reminder that some training may be helpful;**

2. **We will provide a free 53 page GETTING STARTED USER GUIDE for users new to Greentree. This "beginners" guide has been designed to help new users familiarise themselves with moving around Greentree and the basics of the system.**

3. **Primacc believe training is so important we will offer training at a rate of 40% off our standard consulting rate, for a maximum of two hours, provided this is booked within 30 days of the employee commencing in their role.**

We will **trial this until the end of June** to understand how you feel about the initiative and would welcome your feedback.
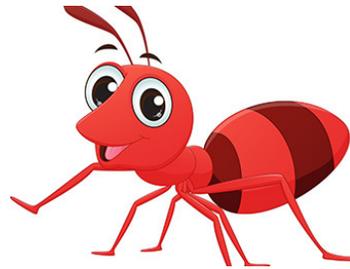

Annual MYOB Partner Conference

Leigh, Bryce and Peter will be **attending the annual MYOB conference** on the sunny Gold Coast in the first week in March. It's **a forum for all partners in Australia and NZ** to come together to see **what developments are expected** in the coming months and years with respect **to product enhancement and development. There will be professional development, education, focus group discussions,** along with recognition of excellence at their **annual awards.**

Our **March** news-talks will **update** you on major themes.

Riddle of the Month / Caption this Picture

We hear you! We had limited interest in Captioning the picture and have elected to drop that and revert back to the Riddle of the Month. So its back to the Riddle.

I'm as small as an ant, as big as a whale. I'll approach like a breeze, but can come like a gale. By some I get hit, but all have shown fear. I'll dance to the music, though I can't hear. Of names I have many, of names I have one. I'm as slow as a snail, but from me you can't run. What am I?

It's a Leap year
There are 29 days in Feb this month

Please check your calendar files to make sure they also are **reflect** it's a leap year with **29 days, otherwise you could run into a number of complications**.
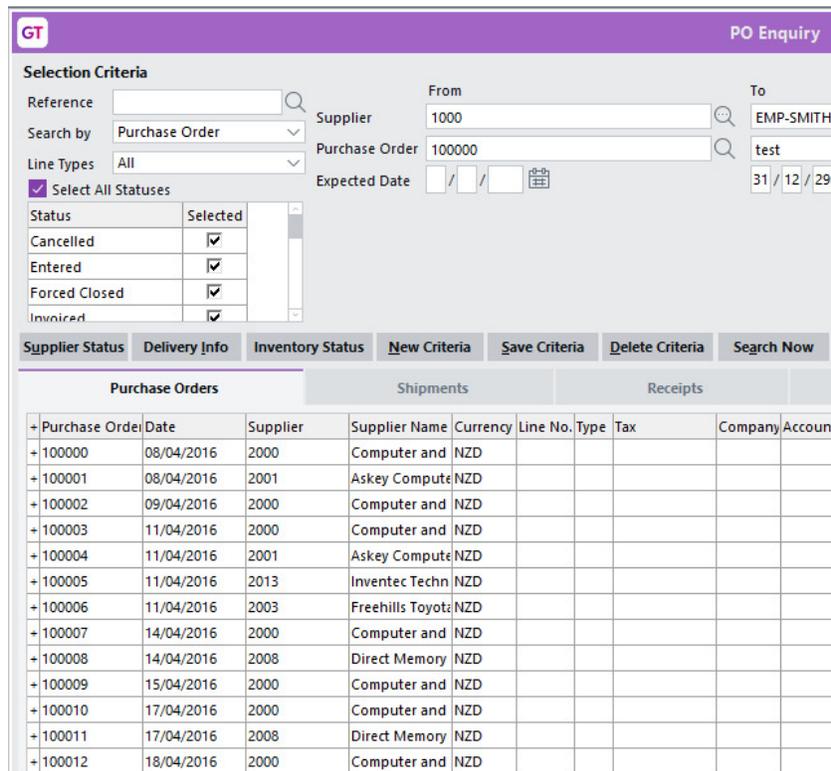

Greentree Tip of the Month
Clever Table Tips

One of **our long time consultants brought this tip to our attention**. Everyone else in the room was like "yep we all know that", but as the saying goes, **you don't know what you don't know** and for those that may not be aware it's a fantastic tip.

When you have a table of data that has the "+" drill down and you want to expand all lines to see the detail
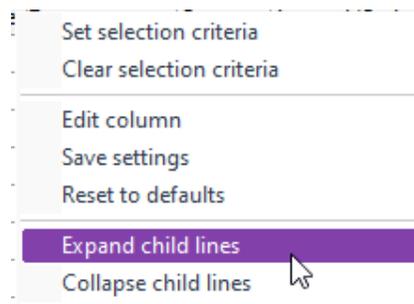

Eg PO Enquiry

You can right click on the header row and choose to Expand Child Lines

This will expand all lines in the table as below. **To Collapse them back again, right click the Header row and choose "Collapse Child Lines"**

+ Purchase Order	Date	Supplier	Supplier Name	Currency	Line No.	Type	Tax	Company	Account/Code
